QPAS Nano - EQUIP KIDS will be a time for kids, junior leaders and leaders to come together for encouragement, ministry training, activities, sports and discipleship. Our aim is to teach, train and equip kids for ministry and to release them in their gifting and calling. This is the second year for this camp and we believe this year we'll be back bigger and better than ever!

Electives

Worship // Brass // Timbrels // Drama // Sports Ministry // Preaching // Social Justice // Percussion // Dance // Vocal // Video Tech // Hospitality // Visual Arts

This year you will have the opportunity to select two electives. These electives will provide hands on teachings, encouragement and handy little hints to help better equip YOU for God's work.

Theme Day

During camp we will have a themed day where you can come dressed as your favourite "SUPER HERO" or someone you admire. This will fit in with teachings at camp as we look at discipleship and who we can look up to!

Corps Leaders

It will be your Corps responsibility for sending leaders along with their kids to help with supervision and to ensure a safe space for the camp (just like kids camp in previous years). They will need to provide enough leaders to cover the Safe Salvo/Caring for Kids requirements. Please note that it is preferred that you don't rely on Junior Leaders to make up the ratio requirements as they will have their own leadership development training throughout the weekend.

There will also be Leadership Development Workshops - These will be run at the same time as the electives and will be for the corps leaders who are on camp. This training will involve behaviour management, discipleship, safe salvo aspects and more.

Junior Leadership Elective (ages 13 to 17)

If you are between the ages of 13 and 17 and are involved in any area leadership (not just kids ministry) at your corps then this camp is for you too!!! As part of our focus to help raise young emerging leaders, we will be offering a junior leadership stream at QPAS Nano which will include leadership development training as well as practical hands on training by assisting the elective leaders for 2 or 3 sessions over the weekend. Each junior leader will also be partnered with a staff member to journey with them for the weekend to mentor and coach them in leadership.

****Please note there are limited spots for this elective so get your forms in fast!!!**
