

PRINCIPAL 5

How to introduce your series the right way

Exercises:

- 1. Think about the historical ebb and flow of giving in your church (you'll want to research this further later). Based on flow, what are the best times of year to preach on money, stewardship and generosity because the church is financially healthy?
- 2. List 3 ways you can be vulnerable and transparent about this issue from the pulpit.

3. Based on what you heard in this session, write out how you would introduce a series in your church in the right way. (Use the back of the page if necessary.)
