# Bagamoio Crèche

Bagamoio crèche is a day care centre in Maputo, the capital city of Mozambique.

The centre is directly linked to The Corps of the same name and it serves its local community.

The Corps offers support to single mothers, orphans and vulnerable families, both with physical and mental difficulties.

105 pupils currently attend the crèche, boys and girls between the ages of 3 and 6.

Both, the crèche and Corps were recently rebuilt with donations from Europe, giving this place a great setting for the congregation and the children.

The crèche building was divided in two rooms, where children are allocated by age group during classes.

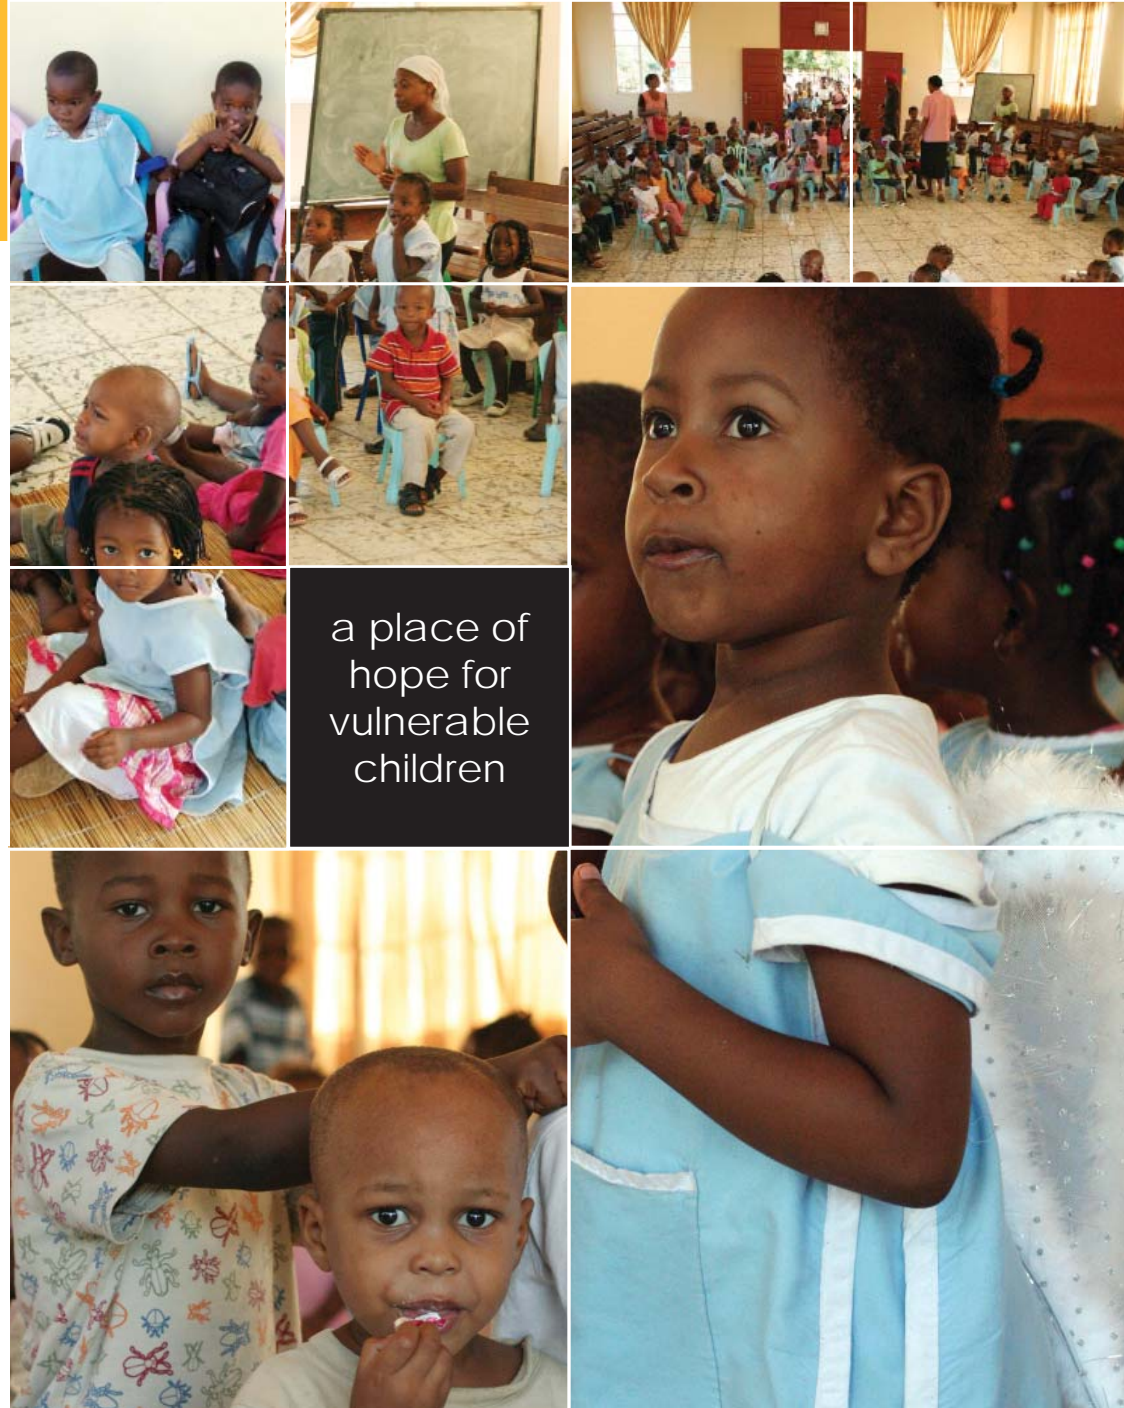

When children are not in class, the 2 rooms become a nursery by pulling out some mattresses.

Although the facilities are comfortable, there is no teaching equipment, educational toys or books.

A normal day at the crèche starts at 7am when the children arrive. They do their exercises, then are given breakfast and have some classes until midday. After lunch they take a nap, and right before they go at 3pm they are given afternoon tea.

The Bagamoio community benefits greatly from the programs established by the Corps...and there is a lot of potential of what could be done in this place!

Your financial support will mainly go towards the feeding program and teaching resources.

a place of  
hope for  
vulnerable  
children
