# Inhagoia Crèche

Inhagoia Creche is a day care centre located in Maputo, the capital city of Mozambique. It has been operating for over 10 years and it's directly linked to the Corps of the same name.

The crèche cares for 76 children of the local community, boys and girls between 3 and 6 years of age.

A normal day at the crèche starts at 7am when the children arrive. They are given breakfast, do their exercise and have some classes until midday. Then it's lunch time, then afternoon nap, and right before they go at 3pm they are given afternoon tea.

The facilities of the crèche are very basic:

There is only one room where all children receive their classes together. A dormitory for afternoon naps, a kitchen and a toilet.

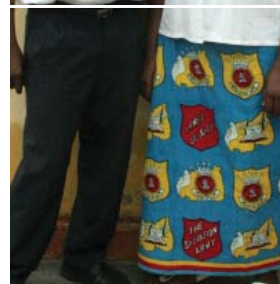

It has no electricity and no running water. The water is collected locally and stored in big containers; it is then purified with chlorine tablets and then boiled for cooking.

There isn't any teaching equipment, such as blackboards, educational toys or books. There isn't a playground either.

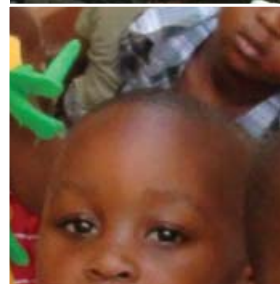

The teacher and carer are very limited in what they can do during the day to help children learn better. Besides resources, they also require training.

This is a really important place for children as the prevalence of HIV/ Aids and malaria in this area is high. The community benefits greatly from the programs established by the Corps.

Your financial support will mainly go towards the feeding program so that children can receive a more nutritional diet.

a place of hope for vulnerable children
